

ENGLISH

Whatever topic you have a question about, you will use a search engine to find the answer! This is what makes digital content creation more useful than ever. If you are a content specialist or an expert in a particular field, and you want to see your content shared far and wide with as many people as possible? UGCasper allows you to share your knowledge and expertise you know in one of 7awi's titles, so if you are a doctor, teacher, psychologist, nutritionist, or expert in any academic field, register in UGCasper to start sharing your content.

What is UGCasper?

UGCasper is a platform that allows anyone who is an expert or specialist in any academic field to share their content in any of 7awi's websites where millions of people can read their articles. Content creators can share their content through a specific tool, and they can have access to it once they are accepted if they meet the conditions. Content creators must adhere to writing content that is good, relevant, accurate, clear, and grammatically correct. Furthermore, articles will be published under the names of the content creators once the content is approved.

How to register in UGCasper?

- Go to: [UGCasper.7awi.com](https://www.UGCasper.7awi.com)
- Fill out the personal information needed for the registration process that includes:
- First name
- Surname
- Username "It will appear under your articles"
- Download a professional profile picture
- Create a password
- Write an academic/professional biography that describes your experience in the field you are going to write about
- Link your UGCasper account with your social media accounts so people can get to you easily
- Once you have submitted your registration application, you will receive an email that confirms your registration

Steps to publish articles through UGCasper

Once you get the acceptance email to become an author in UGCasper, you can start writing and publishing by following these steps:

- Choose a topic that you are familiar with and have good information about
- Choose an attractive, informative, and meaningful title
- Add the article to the specific area for it, and make sure it's written in simple words and mistake-free
- Add high-resolution photos to your article, because a good image can enhance the article
- Choose the article category so 7awi's team can send it to the right platform
- Add a cover to the article

- If there is a video, add its link in the specific area
- Accept the terms and conditions after reading it, and then press send

Note that the article won't get published after sending it immediately, but it has to be reviewed by 7awi's team, and you'll receive an email when accepting and publishing it, and the email might be in the Junk mail.

Terms and conditions to publish in UGCasper

- The writer must be familiar with the topic he will write about and collect his information from valid and reliable scientific references to win the reader's trust.
